

You Want Oracle's World-Class Technology.

Oracle's latest database release (12c) has been retooled specifically so it's simple to consolidate existing databases or move them transparently between on-premise and Cloud-based platforms without ever having to make any changes whatsoever to your applications.

Make it happen with OnX, an Oracle Platinum Partner

Whether you need to migrate your Oracle database to the latest version or you've never been involved in an Oracle implementation, you don't have to go it alone when you do business with one of the world's largest technology companies.

OnX can help you every step of the way when working with Oracle, whose software enables a vast spectrum of enterprise-level IT functions around the globe. OnX is an Oracle Platinum Partner, one of the highest partner levels for infrastructure technology solution resellers worldwide.

When you partner with OnX, you get:

- > VIP access to Oracle's product knowledge and solutions information.
- > Peace of mind working with a partner certified in 42 Oracle technologies related to hardware, software, servers and engineered systems.
- > Consultations with highly trained sales and technical experts who know Oracle inside and out.
- > Professional services including strategic roadmaps, deployment, migrations, project management and on-demand resourcing.
- > Advanced Sun SPARC legacy expertise.

We help you implement the exact Oracle technologies you need

OnX and Oracle together can provide solutions from system design to startup and implementation services using the full line of Oracle products. OnX is a Strategic Partner in the Oracle Channel organization. Oracle sales executives think of us as a go-to partner in:

- > Solutions and Services
- > Virtualization and Cloud
- > Converged Infrastructure
- > Enterprise Management
- > Information Management
- > Storage and Data Management
- > Network Infrastructure

Tap into state-of-the-art Oracle migration & upgrade, security and Cloud services

With Oracle and OnX, you get the latest must-have technologies and service:

- > **Database migration and upgrade:** Our database experts provide simple, thorough, and tested methods that make it simple to migrate your databases between different platforms as well as upgrade your existing databases to the latest database release.
- > **Database security:** Our database security experts enable you to manage access to sensitive production data, including denying access to non-trusted actors. We'll show you how to encrypt crucial production data while still making it available in a masked format for testing and evaluation using recognized Oracle best practices, techniques, and toolsets.
- > **Cloud storage:** Our lifecycle approach provides guidance and expertise through each phase of your transition to a cloud environment. Help achieve a successful, long-term cloud strategy and deployment that protects legacy application investments while improving IT efficiency and service delivery.

We can help you with these Oracle technologies, too:

- > Oracle Cloud PAAS
- > Private Cloud
- > Information Management
- > Storage Management
- > Enterprise Architecture
- > Engineered & Infrastructure Systems
- > Oracle Database Upgrade Service

Oracle Platinum Partner specializations:

- > Engineered Systems
- > Entry-Midrange M-Series Servers
- > SPARC T4, T5 and T7 Servers
- > Storage ZFS3, ZFS4 and FS1
- > Oracle Solaris Cluster 3.x
- > Oracle Solaris 10 and 11
- > Super Cluster
- > SPARC M7 Series Servers
- > Oracle Database Appliance
- > Oracle Database 11g
- > Oracle Database 11g Security
- > Oracle Linux 6
- > Oracle Enterprise Manager 12c
- > Oracle Database 12c Administrator

Why OnX?

Oracle trusts OnX to examine every aspect of your businesses and find the precise Oracle solutions to the most daunting IT challenges. As a Platinum Partner, we have the track record and expertise to make sure you're satisfied with your Oracle technology.

Our team of knowledgeable, certified, highly skilled professional services team is built exclusively to serve our clients. It's what sets us apart. Our team of 1500+ professionals creates a path for implementing the right Oracle applications to achieve your goals. And our OnX OnDemand Residency Services team can augment your inhouse capabilities by bringing highly skilled IT staff onsite to complete special projects or to help manage your everyday operational needs.
