

OnX Managed Services

Companies throughout North America rely on OnX to manage their back-end IT so they can focus on the important initiatives driving toward their business goals.

More Room to Grow, Less Downtime Risk

Enterprises that need to deliver new products, services and applications to market quickly and cost effectively understand the value of a strong managed services partner to elevate their critical IT capabilities. OnX helps companies throughout North America stay focused on their key business objectives while we proactively manage their back-end IT infrastructure.

OnX's suite of cloud and managed services can help you with:

- > Traditional dedicated private hosting and self-serve or fully managed IaaS cloud solutions
- > 24x7 remote monitoring and management
- > Data protection services that deliver high availability of your mission-critical infrastructure, applications and data
- > Hosted email and collaboration tools empowering your staff to share critical information effectively and securely

Managed Services Focused on Your Success

Cloud Services and Managed Hosting

- > Hybrid solutions for private and IaaS cloud
- > Turnkey managed hosting solutions, delivered in a multitenant cloud or dedicated private hosting environment
- > Extra capacity for seasonal or larger-than-usual computing requirements
- > Access to certified support, with guaranteed SLA

Remote Monitoring and Management

- > 24x7 remote monitoring and support of infrastructure, hardware and OS
- > Workload migration capabilities to multiple compute environments
- > Hand-off system administration, security patch management, and server and infrastructure management to skilled experts

Backup and Recovery

- > Disaster Recovery and Business Continuity solutions to protect your business
- > Data backup and storage solutions to protect your organization's critical information
- > Outsource production
- > Create fail-over or dual-site solutions

Communication and Collaboration

- > Enterprise class communication technologies
- > Cloud-hosted Office 365 productivity tools priced per user for predictable cost
- > SharePoint-as-a-Service to help deliver social and mobile collaboration

Why OnX?

OnX Enterprise Solutions is a leading managed services provider to forward-thinking businesses around the world. Companies rely on us to help them reach their business goals, including:

- > Faster time to market
- > Lower infrastructure capital requirements
- > Improved performance and availability of mission-critical applications and infrastructure
- > Meeting strict security and compliance requirements
- > Freeing up IT to focus on core growth strategies

Our vast experience assessing, designing, building and managing data centers gives us a rare insight into the complexities of managed infrastructure solutions.

Strategic partnerships with today's most prominent technology companies provide us with an in-depth understanding of multi-technology environments. Experience has taught us that managed services require precise skills and strategies to reduce risk and keep companies running smoothly. At OnX, we work closely with you to understand the nuances of your business and build fully managed IT solutions so that you can focus on your company's strategic growth.
